### GRANDMA NEVER LET HER HAIR GET GRAY

She Kept Her Locks Dark and Glossy, with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.—Adv.

## Frail, Sickly Children Improve Rapidly on Vinol

The reason we so strongly recommend Vinol for frail, sickly children is because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycero-phosphates—but no oil—the very elements needed to build them up. It is delicious to the taste, and children love it.

**These Two Mothers Have Proved This.**

**Williamson, W. Va.**  
"My little boy was weak, puny, and tired all the time, did not want to do anything. Vinol was recommended and it built up his strength and made him healthy. Now he romps and plays like other children. We certainly believe in Vinol for children."—Harley Clay.

## Universal natural milker

Alternates, Like Milking With Hands

## Milk Two Teats At A Time Two Times Every Day

Every farmer knows why he needs the time-saving, profit-increasing advantages of a milking machine, especially now with help so scarce.

But do you know why you need this milker? Do not confuse the Universal with any other. It has exclusive advantages—farmers everywhere testify to its superiority.

The Universal alternates, like milking with hands. While two teats are being milked, two other teats are being massaged, thus the action is stimulating, comforting and relaxing.

The cow benefits from the use of the Universal, and frequently gives more milk.

Experience of farmers completely establishes the unquestioned superiority of the Universal. Write for catalog.
